

COURSE: CS 101 — Introduction to Programming

Credits: 3 | Department: Computer Science

Document ID: CAT-COURSE-CS101

Source: <https://catalog.techstate.edu/courses/cs101>

Date Accessed: March 29, 2025

PREREQUISITES: None

CO-REQUISITES: None

OFFERED: Fall, Spring, Summer

DESCRIPTION:

Introduction to programming concepts using Python. Topics include variables, data types, control flow (conditionals and loops), functions, basic recursion, file I/O, and introductory object-oriented programming. No prior programming experience required. Students will write programs of increasing complexity through weekly labs and four programming projects.

LEARNING OUTCOMES:

- Write syntactically correct Python programs
- Use conditionals, loops, and functions to solve computational problems
- Apply basic object-oriented principles (classes, objects, inheritance)
- Debug programs systematically

GRADING: Projects 50%, Midterm 20%, Final 30%.

MINIMUM GRADE TO SATISFY PREREQUISITE: C (students who earn below C must retake before enrolling in CS 102)

NOTE: CS 101 is offered every semester including summer. Students with AP Computer Science A score of 4 or 5 may receive credit equivalency — contact the EECS department for evaluation.
