

COURSE: CS 210 — Computer Organization and Architecture

Credits: 3 | Department: Computer Science

Document ID: CAT-COURSE-CS210

Source: <https://catalog.techstate.edu/courses/cs210>

Date Accessed: March 29, 2025

PREREQUISITES: CS 101

CO-REQUISITES: CS 102 (must be taken concurrently or already completed)

OFFERED: Fall, Spring

DESCRIPTION:

Fundamentals of computer organization and architecture. Topics include digital logic, Boolean algebra, combinational and sequential circuits, instruction set architecture, assembly language programming (x86), memory hierarchy (cache, RAM, virtual memory), pipelining, and I/O systems. Labs use hardware simulation tools and assembly programming.

GRADING: Lab reports 30%, Assembly programming assignments 30%, Midterm 20%, Final 20%.

NOTE: Students must be concurrently enrolled in CS 102 OR have already completed CS 102 to register for CS 210. Exceptions require department chair approval.
