

COURSE: CS 353 — Natural Language Processing

Credits: 3 | Department: Computer Science

Document ID: CAT-COURSE-CS353

Source: <https://catalog.techstate.edu/courses/cs353>

Date Accessed: March 29, 2025

PREREQUISITES: CS 351

CO-REQUISITES: None

OFFERED: Fall

DESCRIPTION:

Computational approaches to natural language understanding and generation. Topics include tokenization, n-gram language models, word embeddings (Word2Vec, GloVe), sequence models, named entity recognition, parsing, sentiment analysis, machine translation, and large language models (fine-tuning BERT, GPT-style architectures). Students complete an NLP project of their choosing.

GRADING: Assignments 40%, Project 40%, Midterm 20%.
