

COURSE: CS 365 — Penetration Testing

Credits: 3 | Department: Computer Science

Document ID: CAT-COURSE-CS365

Source: <https://catalog.techstate.edu/courses/cs365>

Date Accessed: March 29, 2025

PREREQUISITES: CS 361 (minimum grade B-)

CO-REQUISITES: None

OFFERED: Spring

ENROLLMENT: Instructor consent required. Students must submit a brief statement of purpose and have a verified GPA of 3.0 or above in CS courses. Class size limited to 20 students.

DESCRIPTION:

Ethical hacking and penetration testing methodology. Topics include reconnaissance, scanning, exploitation, post-exploitation, and reporting. Covers web application pentesting, network pentesting, social engineering awareness, and responsible disclosure. All activities conducted in controlled lab environments only. Students must sign the course ethics agreement before the first class.

GRADING: Lab exercises 50%, Red team exercises (group) 30%, Final pentest report 20%.

NOTE: Unauthorized use of techniques learned in this course outside designated lab environments is a violation of TechState's academic integrity policy and may result in expulsion and referral to law enforcement. Instructor consent is mandatory — enrollment without consent will be cancelled.
